

Alan Phillips, J.D. is a leading U.S. vaccine rights attorney. He advises individuals, families, attorneys, groups and organizations throughout the U.S. on vaccine [exemption and waiver rights](#); [supports legislative initiatives](#) aimed at expanding vaccine freedom of choice; is [published internationally](#) on vaccine health and legal matters; and appears regularly at [rallies, conferences, and on radio](#) discussing vaccine rights issues. Alan co-hosts weekly radio shows broadcast on BlogTalkRadio, Freedomizer Radio, and Natural News Radio, where he discusses vaccine rights issues. Alan is also a regularly featured writer for [Natural News](#), [GreenMedInfo.com](#), [Liberty Roundtable](#), and the [Pastoral Medical Association](#).

Alan is a Board Member of the [World Association for Vaccine Education](#) and the [Pastoral Medical Association](#); an Advisory Board Member of the [American Chiropractic Autism Board](#); a co-founder of North Carolina's [Citizens for Healthcare Freedom](#); an Associate and Legal Advisor to [Source Force, Inc.](#) (a caring ministry for poverty AIDS and terminal cancer victims); and an Advisory Counsel Member of [Thai Healing Alliance International](#).

Over the years Alan has helped clients secure [vaccine exemptions in a wide variety of settings](#), including schools (public, private, home and military), colleges, the military (members, families, civilian contractors), immigration (including foreign adoption), healthcare and other employees, and parents in vaccine custody disputes. Alan's e-book, [The Authoritative Guide to Vaccine Legal Exemptions](#), is the only publication that provides authoritative, accurate, in-depth information about how state and federal laws interact with individual circumstances to form the precise boundaries of each person's legal right to refuse vaccines. His [Vaccine Rights](#) website is the only Internet site dedicated solely to vaccine legal exemptions and waivers. Alan also spearheaded the [Pandemic Response Project](#) (PReP), a national initiative aimed at reforming state laws across the U.S. that currently provide for vaccines to be mandated *without exemptions* during declared emergencies and non-vaccinated persons to be quarantined in government facilities against their will.

Finally, Alan is an accomplished professional singer-songwriter, composer, and producer. His performances of original songs on piano and 12-string acoustic guitar have received standing ovations at seven international conferences, while sales of original music have gone to citizens from countries on six continents. His first music video production, [Destiny Freedom!](#) ("For we must be the masters of our destinies!"), has received a strong, positive response from freedom advocates, while a prior music production, [Share Your Light](#), stands as a possible theme song for the vaccine rights movement, ending with the prophetic words, "Share Your Light, let your truth be unfurled; One by one, we are freeing the world..."
