BIOGRAPHY OF AUTHOR:

Charles H. (Chuck) Coppes is the founder and president of IDP Consulting Group, an independent precious metals and consulting firm that assists clients with pension fund rollovers, commercial storage and physical delivery of precious metals. He is also a *summa cum laude* graduate with a degree in Christian Apologetics and Comparative Religions, and writes a free monthly newsletter that's available at either of his websites. He is the author of *America's Financial Reckoning Day* that provides an intriguing background of monetary history, macroeconomics and geopolitics that is prophetically shaping our world today, along with helpful advice for contrarian investors. For the baby-boom generation this is a serious wake-up call that domestic and foreign issues are converging to script the "perfect financial storm" that include unsustainable sovereign debt, unfunded liabilities, and derivatives exposure that can lead to an eventual currency collapse, bond defaults, hyperinflation and threats to our civil liberties.
