

Desiree Otero, President at Aqua Sun Ozone

Ozone technology at work for you

WE'RE THE LEADER IN OZONE TECHNOLOGY

Aqua Sun Ozone, International was founded in 1994 with a goal of becoming a global provider of ozone technology. Our headquarters are in the United States and we distribute our products globally. Aqua Sun Ozone recognized early on that ozone technology is one of the most environmentally safe methods for water and air purification.

Our commitment to excellence ensures that all products created for our customers are of the highest quality and standard. Although ozone has been around for decades, it took the innovative technology of Aqua Sun Ozone to create products that are perfectly adapted to today's residential, commercial, recreational and environmental needs.

We continue to produce quality products, provide excellent customer service, offer affordable pricing with an end result of total customer satisfaction. Aqua Sun Ozone, International...a proven leader in ozone technology.
