

## **Dr. Edward F. Group III, DC, NP, DACBN, DCBCN, DABFM**

### **Professional Profile**

Dr. Edward F. Group III founded Global Healing Center in 1998 and currently serves as Chief Executive Officer. At the forefront of the research and development team, Dr. Group assumes a hands-on approach to producing new and advanced degenerative disease products and information.

Dr. Group has studied natural healing methods for over 20 years and, though he no longer sees patients individually, now focuses on spreading the word of health and wellness to the global community. Under his leadership, Global Healing Center, Inc. has earned recognition as one of the largest alternative, natural, and organic health resources on the Internet.

### **Dr. Group's Mission**

Dr. Group believes his personal mission is to help the world by teaching and promoting philosophies that produce good health, a clean environment, and positive thinking. This, he believes, can restore happiness, and love. Dr. Group considers it part of his responsibility to expose hidden truths of the medical industry, which has a tendency to treat symptoms of disease and not the underlying cause. The incidence of disease is increasing at an alarming rate, a statistic Dr. Group believes is an indication that the current healthcare system is not working. Dr. Group centers his philosophy around the understanding that the root cause of disease stems from the accumulation of toxins in the body and is exacerbated by daily exposure to a toxic living environment.

### **Armed Forces Career**

Dr. Group enlisted in the Army in 1985 and completed basic and infantry training at Fort Benning, Georgia. He was assigned to the 4th Infantry Division out of Fort Carson, Colorado and transferred overseas to the 1/506 Infantry Regiment at Camp Greaves, Korea. While in Korea, he was honored to be accepted by one of the top Korean Tae Kwon Do masters for martial arts training. Dr. Group credits his martial arts training for honing a deep appreciation for discipline, focus, meditation and healing techniques, the movement of energies and the connection between all living things. He was honorably discharged from active duty in 1989 following his time in Korea. His military duty is highlighted by two Army achievement medals, a good conduct medal and an overseas ribbon.
