

About Jonathan Emord

Biography:

Jonathan W. Emord has been practicing constitutional and administrative law before the federal courts and agencies since 1985. Having begun his career as an attorney in the Federal Communications Commission during the administration of President Ronald Reagan, Emord has maintained an abiding conviction to achieve full First Amendment protection for the freedoms of speech and press. In 1991, he authored the critically acclaimed *Freedom, Technology, and the First Amendment* in which he chronicled the intellectual foundations of the First Amendment and advocated replacing government control over the airwaves with a title registry, private property rights approach.
