

About Mitch Gerber

His name is Mitchell Nicholas Gerber. He is an Activist who has dedicated his life to expose and help stop the Most brutal persecution and Human rights atrocity in Modern history: The State Mandated and State Endorsed Forced LiVE Organ Harvesting of the Falun Gong spiritual movement; where HUNDREDS AND THOUSANDS of practitioners of this spiritual mind and body practice have been murdered, since 1999 in China, sent to 36 death camps and over 700 hospitals; where their bodies are cut open while ALIVE; organs removed and sold; and the Falun Gong practitioners' bodies are burned in ovens to conceal this horrific atrocity. He leaves no name, and seeks no reward; all he wants is for people to know about this human rights violation and become aware and lend their support and consciousness to stopping this barbaric and inhumane atrocity that will soon leave the worlds' people numb, soul stirred and shocked that this has been going on for the last 16+ years! To fail to support the Good and To fail to expose the Evil in this world is Unacceptable. Thus, we as human beings must have the courage to not remain silent, but to step forward and do what is Right!
