

## About Sharón

Sharón has combined her intellect, observational skills and experiences, and over 30 years as an innovative educator to detect useful patterns in names, which has been greatly refined by her continuing work with others on their spiritual journeys.

Sharón graduated from the University of Redlands with a B.S. in Mathematics and began teaching in a junior high school in California. During the 3 years there, she obtained her M.A. with an emphasis in education administration. She then moved to Germany where she taught for the Department of Defense Schools and married. Sharón continued to move around (Germany-Texas-Japan-New Mexico-Nebraska-Washington-Oregon) until retiring in 2002 as a high school principal. She came out of retirement in 2008 to become involved in schools once again.

During her time in the schools, Sharón linked the patterns in names to a person's mindset and personality. She worked on figuring out the patterns of the different letters for 15 years before she fully comprehended all of the nuances. Sharón took the opportunity to travel a large part of the world testing her theories for the first 3 years after retiring. Her book, *Know the Name—Know the Person*, was the result of her study into the patterns in people's names and Sharón now spends most of her time traveling and sharing Neimology with others.
